K35 Alexandria, Cairo Road, Shikh zayed City, Egypt

Dear facility Management career Team

I am very excited for apply for Data analyst in your Team; I can make progress into a management role in short space of time. And also I can find roles in academic research or government advisory bodies.

As a business analyst I can work with your organization, helping to manage, change and plan for the future in line with their goals.

During 3 years I was working for famous organization here in Egypt. We guide the decision maker to make the optimal decision and understand the current organizational situation, identify future needs and create solutions to help meet those needs.

To get more experience, I completed Udacity advanced data analysis Nano Degree which improve my career and adding more professional ways to my future career by using Python, SQL, Tableau for data analysis.

I hope to transfer my fresh experience to your organization , I want to make appointment with authorized person to discuss with him what can data analysis and vitalization can improve your organization .

Best regards

Amira Moukdam
